

THE PASSMEFAST GUIDE TO PRACTICAL TEST DAY

STILL FEELING SOME PRE-TEST JITTERS? HERE ARE OUR HANDY TIPS FOR PASSING YOUR PRACTICAL!

1. Brush up on what's under your car's bonnet to succeed at the **show me, tell me** part of your practical
2. Keep your cool — your examiner may simulate a **controlled stop**, where you must safely bring the car to a halt
3. **Know your manoeuvres** — bay parking, parallel parking, and pulling up on the right-hand side of the road and rejoining the traffic
4. **Pay attention** — be aware of risks, show consideration to other road users, and follow directions to reach your destination

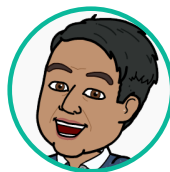

WHAT OUR INSTRUCTORS SAY

NOEL

“The test is much more about the decisions you make rather than the quality of control. Pupils fail because they expect the test to be much harder.”

ADNAN

“Try and make a joke with the examiner as an ice breaker, and always have a smile on your face!”

FRANK

“Make sure you're feeling prepared before your test. You've already learned everything you need to know, so don't let your nerves get the better of you!”
